

# THE INTERIOR JOURNAL.

FRIDAY, : : : JUNE 21, 1872.

## NOTICE.

All communications, either in editorial or letter form, character, should be addressed to HILTON A. CAMPBELL, box 19, Stanford, Ky.

All monies required for advertising, subscription or post or express or it will be at the parties so named.

James Cook to our advertising agent at Hustonville, to John W. York, Louisville, to be sent to subscribers, and to the paper.

John G. Clegg, Hustonville; F. B. McLean, Crisfield; W. C. Ford, Somerville; E. B. Bryan, Danville; L. R. Jones, Pine Hill.

## To Subscribers.

We would very respectfully suggest to our subscribers that before they make complaints to us about not receiving their paper regularly, they had better pay the postage, which is five cents per quarter in advance, or twenty cents per annum. We have heard a great many complaints, and until the postage is paid, we do not intend to endeavor to trace lost papers. Some of our post masters are a little careless about delivering our papers, and we will in due time attend to the matter. In the meantime we urge our subscribers not only to pay their postage, but also pay their subscription, and their complaints will the more readily elicit a response.

## Business Directory.

Those of our business men who desire their names inserted in our Business Directory for the small sum of 50cts per quarter in advance, can have it done by leaving their orders.

## LOCAL BREVIETIES.

"Times" Times.

Greely stock is still advancing.

Clean out your wells and cisterns.

Brigham Young is 71 years of age.

Well, who is the *bastard* man in town?

Many of our farmers are harvesting this week.

Four births in town last week. This beats Pine Hill.

Frank McAlister want wheat. See advertisement.

Hon Jas. B. Beck has returned home from Washington.

We are sick. Are there any Medical Springs in this country?

Water & Dawson are hungry. See their new advertisement.

A correct picture of our next President can be seen at our offices.

The "Lookout" at Turnersville ends in a new letter this week.

Kentucky University had 900 students during the past season.

Our Lancaster correspondent opposes the granting of "off-the-home" license.

Now is the time to have your fall heads, better heads, statements etc., printed.

The young men of Somersett have found a "muse test." Read letter from "Alert."

It is devoutly hoped that no base ball club will be organized in Stanford this season.

McAllister & Miller propose to buy wheat at the higher market price, in another column.

It is the universal desire of our citizens that the streets of Stanford be appropriately named.

The latest campaign issue is "The Old White Horse," a weekly paper, published in New York.

Our colored friends will hold their stock fair, this year at the usual time, Sept. 10th.

The Farmers' Club will commence building their new banking house in a few days.

The Farmer's Club will meet at the National Bank tomorrow. Let them be a full attendance.

Suspensions are slain by wholesale when found on the streets of Danville, by order of the Board of Trustees.

Ben Tibbs of Danville, the last bachelor and hair dresser in Central Kentucky, wrought some change in our personal appearance this week.

The reports of the condition of the National and Farmers' Banks of this place will be found in this issue. They speak for themselves.

The Fair catalogues will appear next week. We have been detained in the committee on printing, until after the board of Directors meet on to-morrow.

The net proceeds of the Cantata at Lancaster on Friday evening last, was \$145, which was distributed equally among the Sunday schools of that place.

If colored don't visit our colored neighbors on the "town brand" in the rear of the Presbyterian church, it will not be for want of sufficient skill to attract it.

Potato bugs are as stupid as they are voracious. Stray spew lightly over the young vines feels the insects, who do not think of overhauling it to find the potato underneath.

Farmers watch your wheat. If the "bright" gets into it, it will be ruined in a short time. As soon as it is detected, proceed at once to cut and shock it whether green or ripe. So say an old farmer.

The handsome buggy we have seen for years was recently built by our entrepeneur carriage manufacturers, Dennis A. Clark, for a young friend of ours at this place. We sometimes take short rides for our health, when an opportunity presents itself.

Tico D. Warren, of this place, rented the books of our Fair at \$152. The Association may rest assured that, make or break, George will abide by the law in the case. For our part, we had rather see the privilege of selling confectionaries, etc., given to him, than rent an enormous price to some one.

We had a cross street from Lancaster street to the Danville turnpike, just above the depot. If parties in that vicinity would sell the right of way to the Trustees for a reasonable price, we think they would make the street immediately. It certainly would enhance property along the line, and would greatly benefit the town.

## Births.

To the wife of Rev. S. H. King, of this county, on Saturday morning the 19th inst., a son. Weight 12 lbs.

To the wife of John W. Wallace, of this place, on the 15th inst., a son—J. Willie.

## Cool Weather.

The "oldest inhabitant" does not remember to have experienced as much cool weather as we have had this spring and summer. The mornings and evenings are especially cool, and fire has been very acceptable nearly every day, and people sit about the streets on the sunny side, wrapped in overcoats. What causes this departure from the usual temperature?

## Central Hotel.

The Central hotel in Danville is kept, and well kept by our old fellow citizen, M. C. Postman. We know whereof we speak when we say no better hotel can be found in Central Kentucky. Mr. P. tells us "something that don't like to tell," but if he ever concludes to come back to a railroad town like this, we will all welcome him.

## FROM PINE HILL.

PINE HILL, KY., June 18, 1872.

*Correspondence Inter-Journal.*

Hanselweil will evidently be compelled to give up the ghost, as Ashley Owens was sold to John Owens of Cave City, his stein saw mill. This mill was the bone and sinew of the place and we sympathize with the inhabitants in their misfortune. John Owens will move this mill to Cave City immediately, and will soon have it in complete running order, and it will materially revive that place. Cave City has been in a rather dilapidated condition ever since John Owens sold his other mill, which was moved to Piney, and is still in successful operation at that place.

The coal miners' strike has been amicably adjusted, and all hands are more vigorously at work than ever. The coal business will soon be quite lively again, and all those who desire it, they had better pay the postage, which is five cents per quarter in advance, or twenty cents per annum. We have heard a great many complaints, and until the postage is paid, we do not intend to endeavor to trace lost papers.

Some of our precious Pine Hill pupils are carrying on a clandestine correspondence through the post office. The principal of the school should be vigilant in this little love-making affair in school, and arrest all future attempts of disobedience, and properly teach the young ideas how to shoot."

Mr. Gran severely castigated a young lady with a black hickory, a short time ago, for some trivial misdemeanor, and in return a fury of his peers decided to lynch him at the Mt. Vernon jug, for fifteen days, where he is now serving out his time in the darkest dungeon. When he regains his freedom, we trust he will be a wiser and better man and conclude to let other people's business alone.

The passenger train ran over and completely annihilated the well-known Irvine quadrangle that supplied the Central Hotel with its largest element. All the citizens of Pine Hill gathered around the dead carcass of the defunct animal, and appeared in fit much sympathy over the melancholy spectacle. There is a general waiting and gushing of teeth among the inmates of the Central Hotel from the loss of their pet, and thereby the absence of their accustomed faceted fluid. All the citizens expressed their fond and endearing feelings with the usual fervor.

The extrovert dinner bell, which was ordered sometime ago, expressly for the Miner's hotel, has arrived at last, and now summons innumerable gourmands to their regular repasts three times a day.

Mr. J. A. Pickens of this place, has been "picking" in the rural districts, near Mt. Vernon, and has succeeded in "picking" up one Mrs. Ector, and will in the future "pick" her up again, depicting riches and ducats, and shillings, with a random hand, the lots which men are forced to buy.

The extensive dinner bell, which was ordered sometime ago, expressly for the Miner's hotel, has arrived at last, and now summons innumerable gourmands to their regular repasts three times a day.

As far as we are concerned, we are not the least bit surprised that the "old fashioned" pickings will be good.

Mr. E. W. McAlister wants wheat. See advertisement.
